

# MERCER COUNTY CONSERVATION DISTRICT 2022 SEEDLING SALE

## CONIFER BUNDLES

## DECIDUOUS BUNDLES

### Canadian Hemlock

**Description:** This tree is great for landscaping and privacy because of its appearance and ability to be shaped to any height or shape. It is also known as the Eastern Hemlock and is the Pennsylvania state tree.

**Exposure:** Full sun, partial sun/shade, full shade

**Soil:** Acidic, loamy, moist, sandy, well-drained

**Mature height & spread:** 40-70' / 25-35'

**Growth rate:** Slow

**Uses:** Wildlife habitat; landscaping (privacy screen, groupings, foundation planting); lumber

**Seedling age & size:** 2 years / 4-8"

### Musclewood

**Description:** This tree gets its name from its trunk and branches, which look like muscles. It has forked branches, a dense crown, and seeds that attract wildlife. It is also known as the American Hornbeam or

Ironwood.

**Exposure:** Full sun, partial sun/shade

**Soils:** Deep, fertile, moist, slightly acidic

**Mature height & spread:** 20-40' / 20-30'

**Growth rate:** Slow

**Uses:** Wildlife habitat; landscaping

**Seedling age and size:** 1 year / 12-18"

### White Pine

**Description:** This tree is well for windbreaks and is used for Christmas trees. It is a valuable commercial tree and is favored in parks and spacious yards due to its beauty and fast growth.

**Exposure:** Full sun, partial sun/shade

**Soils:** Acidic, drought, moist, well-drained, wet

**Mature height & spread:** 70-90' / 20-40'

**Growth rate:** Rapid

**Uses:** Wildlife habitat and food; lumber; Christmas trees

**Seedling age & size:** 2 years / 7-10"

### Red Oak

**Description:** This tree provides great shade, beautiful fall color, and lots of acorns. It grows more than two feet per year for ten years.

**Exposure:** Full sun

**Soils:** Acidic, clay, drought, loamy,

moist, sandy, well-drained

**Mature height:** 70-90' / 60-75'

**Growth rate:** Moderate

**Uses:** Wildlife habitat and food; lumber

**Seedling age & size:** 1 year / 6-12"

### Norway Spruce

**Description:** This tree is the fastest growing of the spruces. Its dense branching pattern and soil tolerance makes it a popular tree for windbreaks.

**Exposure:** Full sun

**Soils:** Acidic, clay, drought, loamy, moist, sandy, well-drained

**Mature height & spread:** 70-90' / 25-30'

**Growth rate:** Slow

**Uses:** Lumber; Christmas trees; landscaping; wildlife habitat

**Seedling age & size:** 2 years / 10-18"

### Shagbark Hickory

**Description:** This tree gets its name from its unique peeling bark. It features beautiful spring buds and nuts that can be enjoyed by both animals and humans.

**Exposure:** Full sun, partial sun/shade

**Soils:** Rich, moist, well-drained

**Mature height & spread:** 70-90' / 50-70'

**Growth rate:** Slow

**Uses:** Lumber; meat-curing; food for wildlife and humans

**Seedling age & size:** 2-3 years / 6-12"

# MERCER COUNTY CONSERVATION DISTRICT 2022 SEEDLING SALE

### Silky Dogwood

**Description:** This shrub is best used in informal gardens with a natural look, due to its boisterous growth and dense thickets.

**Exposure:** Partial sun/shade, shade

**Soils:** Loamy, moist, wet

**Mature height & spread:** 6-12' / 6-12'

**Growth rate:** Moderate

**Uses:** Stabilizing slopes and erosion; attracting pollinators and birds; rain gardens

**Seedling age & size:** 1 year / 12-18"

### Sweet Birch

**Description:** This tree is well-known for its yellow fall foliage and dark, shiny bark which can be smooth or scaly plated. It also has a strong wintergreen scent.

**Exposure:** Full sun

**Soils:** Deep, fertile, moist, well-drained, slightly acidic

**Mature height & spread:** 40-55' / 35-45'

**Growth rate:** Moderate

**Uses:** Oil of wintergreen; lumber; food for wildlife

**Seedling age and size:** 1 year / 6-12"

### Sweetshrub

**Description:** This deer-resistant shrub gets its name from its fruity scent, making it popular near patios. It's reddish-maroon flowers appear in May.

**Exposure:** Full sun, partial sun/shade

**Soils:** Acidic, alkaline, loamy, moist, rich, sandy, well-drained

**Mature height & spread:** 6-9' / 6-12'

**Growth rate:** Slow to moderate

**Uses:** Landscaping; flower arrangements

**Seedling age & size:** 1 year / 18-24"

### Tulip Poplar

**Description:** This tree is a rapid grower and is the tallest of the eastern hardwoods. Its tulip-shaped flowers bloom in May and June, and it features yellow leaves in the fall.

**Exposure:** Full sun

**Soils:** Acidic, clay, loamy, moist, sandy, well-drained

**Mature height & spread:** 90-110' / 35-50'

**Growth rate:** Rapid

**Uses:** Timber; food for wildlife

**Seedling age & size:** 1 year / 18-24"

### White Flowering Dogwood

**Description:** This tree features white flowers in April-May, red-purple leaves in the fall, and glossy red berries in the winter. It is a great option near utility lines, buildings, and patios.

**Exposure:** Full sun, partial sun/shade

**Soils:** Acidic, clay, loamy, rich, sandy, well-drained

**Mature height:** 20-25'

**Growth rate:** Moderate

**Uses:** Landscaping; food for wildlife

**Seedling age & size:** 1-2 years / 18-24"
